

INSTALL WITH CONFIDENCE

Paver Installation Accessories

STRUCTURE BOND™

FOAM ADHESIVE

- Super-strength hardscape foam adhesive
- Developed for the construction industry
- Precise delivery - No mess, no waste

- Adjustable bead size
- Works on wet and cold surfaces
- High-yield content

*Set time will vary according to air moisture

SUPER QUICK AND EASY APPLICATION

Structure Bond™ is an innovative super-strength foam adhesive that bonds a wide range of construction materials such as pavers, concrete, natural or synthetic stones, bricks, wood, plywood, composite materials, drywall, steel, aluminum, PVC, fiberglass and porcelain.

Structure Bond™ is made from high-quality modified polyurethanes. Its adhesive strength is unmatched among all types of polyurethane adhesives.

Application time is up to 50% faster than conventional tube adhesives. Materials are bonded in just 8 minutes and adhesive is fully cured within 24 hours.

Structure Bond™ Gun allows for a precise adhesive delivery with a single pull of the trigger that stops as soon as you let go. It requires no pumping, cutting or puncturing of cartridge nozzles. Gun is easily cleaned with practical cleaner cartridge available from Techniseal.

One container of Structure Bond™ is equal to twenty 10 oz tubes of standard adhesive and yields an amazing 600 ft. with a 3/8" bead.

Specifications:

Volume: 22.5 US fluid oz - Weight: 24 oz

Set time (open time): <8 min. - Cure time: 24 hrs

An updated technical data sheet can be found at techniseal.com.

ALSO AVAILABLE:

RG+ CONCRETE ADHESIVE

- Ultra-adherent on dry, wet or frozen surfaces
- Low-VOC formula
- Elastomeric resin-based compound - remains flexible
- Ideal for the construction of retaining walls

STRUCTURE BOND™ GUN CLEANER

- Specifically designed to fit Structure Bond™ Gun
- Makes the removal of foam adhesive spillage on any solvent-resistant surface easier than ever before
- A powerful and innovative cleaning solution to get rid of non-cured foam adhesive

DRiBOND™ CHANGING THE WAY YOU OVERLAY

TRANSFORM EXISTING CONCRETE SURFACES INTO BEAUTIFUL LANDSCAPE MASTERPIECES, IN LESS THAN 48 HOURS!

NO MORE CONCRETE REMOVAL!

ADVANCED DRY MUDSET FOR CONCRETE OVERLAYS

DRiBOND™ is specially designed for the overlay of thin pavers (1") or natural stone over existing concrete. With DRiBOND™, there is no need to remove the existing concrete substrate, which is a costly and time-consuming process.

DRiBOND™ can be installed quickly and easily over most sound concrete surfaces.

Homeowners now have the option of having their old concrete driveway, pool deck or patio transformed into a hardscape masterpiece within one to two days. DRiBOND™ makes the installation of pavers possible for a fraction of the cost needed to tear out existing concrete and replace it with a traditional sand-set paver installation.

Over one million square feet of pavers have been installed over the past seven years utilizing the DRiBOND™ technology.

Specifications:

- Bag Weight: 50 lbs
- Bag Coverage Rate: Approx. 30 to 35 sq. ft. (at depth of 3/8")
- ASTM C579, Compressive Strength: 6,850 psi
- ASTM C666, Freeze Thaw Ratio: 94% *
- ASTM C308, Final Set-Time: 5:40
- Maximum Depth: 1"
- Maximum Variance: 5/8"
- An updated technical data sheet can be found at techniseal.com.
- * Note: For installations in freeze-thaw regions, please contact Techniseal.

- Ideal for thin paver overlays
- Driveways, pool decks, patios and walkways
- Dry application
- Polymer-modified
- No mixing - ready to use
- Reduces installation time
- Cost efficient

Easy installation with special Screed Tool

- Made from high-grade durable aluminum
- Easy leveling of DRiBOND™ dry mudset
- Faster application and perfect result

EZ Base[®]

PANEL BASE SYSTEM

SAVE TIME, LABOR AND MONEY

Imagine a patio that installs with less work, less expense and with no special tools or materials.

EZ Base[®] panel system allows installers to easily build a patio or walkway with a stable base that resists movement even in the most extreme freeze/thaw climates.

FAST

saves up to 8 inches of excavation

EASY

each panel replaces up to 250 lbs of base aggregates

DURABLE

will not degrade in the ground

HARDSCAPE SPACERS

Techniseal[®]'s plastic or rubber spacers for exterior hardscape are made of high-quality materials and built to sustain the weight of the vast majority of pavers, slabs and tiles available on the market.

PLASTIC SPACERS

- 10mm height ensures a deep, stable corner joint filled with more jointing material
- Guarantees even spaces between tiles
- Saves time & effort on installation
- 2.5" diameter
- Spacing width: 5/32"
- Ideal for use over EZ Base[®] foam panels

RUBBER SPACERS

- Noise reduction properties
- Provides added stability
- Guarantees even spaces between tiles
- Saves time & effort on installation
- 3" diameter
- Spacing width: 3/16"

EZ Base[®]

PANEL BASE SYSTEM

ELIMINATE DEEP, TIME-CONSUMING EXCAVATIONS

EZ Base[®] provides superior stability to hardscape installations while reducing the required excavation. These easy to install high-density foam panels replace the need for a traditional compacted aggregate layer base system.

EASY TO CUT • OPTIMAL DRAINAGE HOLES & CANALS • STABLE OVERLAP EDGE

Specifications:

- 20" x 36" x 0.67"
- 5.15 sq. ft
- 1 lb per panel
- PPE Grade foam
- 10 units per pack
- 12 packs per pallet
- 120 units per pallet

TRADITIONAL METHOD

(Approx. 9 - 11" of excavation)

EZ Base[®] METHOD

(Approx. 3" of excavation)

Edging & Accessories

8-FOOT RIGID PAVER EDGING

Techniseal®'s Rigid Paver Edging is the only edging that can be cut directly on the ground, making installation a breeze. Lengths join seamlessly with the integrated connectors.

"Lobster Tail" design allows installer to double-spike, eliminating any risk of frost lift. It is also handy for spike off-set, in case of obstruction below grade.

- Easy snap connection
- Can easily be cut on the ground
- Convenient and easy to use
- Heavy duty injection molded
- Made from 100% recycled material

Specifications:

10 units per pack | 63 packs per pallet | 630 units per pallet

Also available: Techniseal® PAVER EDGING NAILS

- Heavy-duty 10" nails
- Perfect for use with Techniseal hardscape edgings

40-FOOT COIL PAVER EDGING

Techniseal®'s 40' Coil Edging is the ultimate product for stylish, modern edges. It is available with a low or high profile. Techniseal's unique coil design allows for easy transport, storage and handling.

- Flexible and durable
- Makes it easy to create aggressive curves
- Compact coil offers 40' of edging in a small package
- No more messy broken bundles
- Made from 100% recycled material

Specifications:

6 coils per box | 12 boxes per pallet | 72 coils per pallet
