Stonegate®

Hi-Way Concrete Products Inc. is a family-owned company in Wareham, Massachusetts that has been in operation since 1954. From the day the first block was produced, more than 60 years ago, Hi-Way has worked tirelessly to gain the reputation for producing high quality concrete materials and hardscape solutions. Hi-Way Concrete Products is proud to be a licensed manufacturer of Keystone Retaining Wall Systems LLC.

For over 30 years, Keystone Retaining Wall Systems has set the worldwide standard in soil retention, erosion control and innovative landscape solutions. By working with the finest network of manufacturers, product developers, engineers and sales professionals in the business, Keystone ensures that its products and services offer the best site solutions for commercial, residential, DOT, industrial and municipal applications. Offering a broad portfolio of products, Keystone has the right solution for projects of all scale, from your dream backyard to the most challenging structural site.

Keystone Retaining Wall Systems LLC reserves the right to improve its products and make changes to its specification and design without notice. The information contained herein has been compiled by Keystone and to the best of its knowledge, accurately represents the Keystone product and how it may be used in the applications which are illustrated. Site conditions, including load pressures acting on the wall, soil types and drainage conditions, may vary. Final determination of the suitability of the product for the use contemplated and the manner of product use are the sole responsibility of the user. Good construction practices and local building codes require the use of an engineered design when constructing retaining walls or free-standing walls in many conditions. Structural design and analysis should be provided by a qualified engineer.
