

EBS EXPERIENCED & BRICK & STONE

RECLAIMING HISTORY

Bed & Breakfast Project

How Experienced Brick & Stone got Involved

A charming bed and breakfast recently decided to update their infrastructure, landscape, and hardscape. The owners of the small business wanted to enhance their brand by using reclaimed materials throughout their property, adding to the charm and appeal of their delightful vacation destination. The result of these efforts is an incredible showcase of our company's used materials, which you will see installation and construction photos of the patio, walkway, parking pad, sidewalks and a gazebo surround.

Construction begins, street brick pavers installed in a herringbone pattern.

Adding Value to the Property & Business

The owners of the bed and breakfast utilized salvaged medina curbing and historic Jamestown Rustic street brick pavers for the design of the parking pad, patio, steps & walkways. The exterior of the gazebo knee wall was finished with rustic reclaimed brick to compliment the hardscape. Using antique materials naturally provides so much character to the historic estate. Adding even more sophistication to the design is the installation of antique street brick pavers in a herringbone pattern. The owners also included gorgeous herb gardens on the reclaimed brick patio, framed with reclaimed medina curbing.

The landscape architects involved in this project checked off all the boxes in creating a project with complex, vibrant character by using antique hardscape products. It was an honor for our team to be a part of this project - assisting with finding the right size, color, look and era of reclaimed stone and brick materials. It is exciting to see continued education within the industry on the design and installation of reclaimed materials for hardscape and landscape projects.

Radiused Medina curbing create edging for the reclaimed street brick paver walkway, step, and patio.

Flowers are full bloom on this gorgeous patio made of reclaimed materials.

Enjoy a fire on this beautiful, reclaimed street brick patio.
