OUR RECLAIMED PRODUCTS TELL STORIES

For our founder and general manager, Scott Smith, repurposed street brick pavers aren't just a business—they represent part of his values. A mechanical engineer, Scott founded an energy-efficiency company and worked with clients to optimize their energy performance. After retirement, he was building an Arts and Crafts-style home and purchased truckloads of salvaged street pavers to give the driveway a historic touch. Passersby inquired about the bricks, and Scott sold them. He purchased more—and sold those, too. In that moment, he saw that others appreciated the durable, beautiful and authentic quality of repurposed street bricks, just like he did. In 2010, Scott launched Experienced Brick & Stone to prevent street bricks and other recycled materials from being thrown into landfills and wasted. Today, we have storage yards and reclaim operations in several states and work with clients across the country, giving new life to historic reclaimed brick and stone.

JIM M. | MINNEAPOLIS, MN
I purchased several pallets of reclaimed stone to use as a border in my garden and was very happy with the product. Dealing with the company was easy and Scott was always professional and courteous. Highly recommended!

BRAD R. | ORGHARD PARK, NY
We own a 150-year-old historic farmhouse, and I wanted a product that would look as if it had been there 100 years. We did a walkway project in which we used Scott's Jamestown brick along with a cobblestone border. His service and professionalism was top notch. Would highly recommend his product.

JOYCE T. | WHEATFIELD, IN
Approximately 3 years ago we were in the market to acquire reclaimed cobblestone. After checking with several places we came across Experienced Brick and Stone, and after speaking with Scott Smith we looked no further because of his helpfulness and professionalism. His prices and products were above expectations, even if a problem occurs you are always updated regularly by him personally. He also makes suggestions for use, sends pictures, lets us know of other things available. We have used Experienced Brick and Stone for multiple projects.

DAVID B. | ROCHESTER, NY
Experienced Brick and Stone provided the pavers for our front walk. They originally were street cobbles from Olean, NY. It is really nice to have such history in our front yard. I think this is a great business and finds homes for materials that would otherwise be discarded and landfilled.
