

# STONE

The Dimensional Stone Source.

GLEASON / INESON  
STONE SUPPLIERS, INC.

# Introduction

“We take our orders from you.” At **GI Stone** that tag line states our commitment to provide our customers with the products and service they demand. In addition to the full range of stone products that we stock, we also provide design consultation, budgeting, drafting, custom fabrication and delivery services for projects large and small.

If it's dimensional stone you want, let us help you find the products, finish and details you desire on schedule and within your budget. With fabrication facilities worldwide we can bring to you an unlimited range of colors, and exceptional flexibility in production times.

# Custom Fabrication

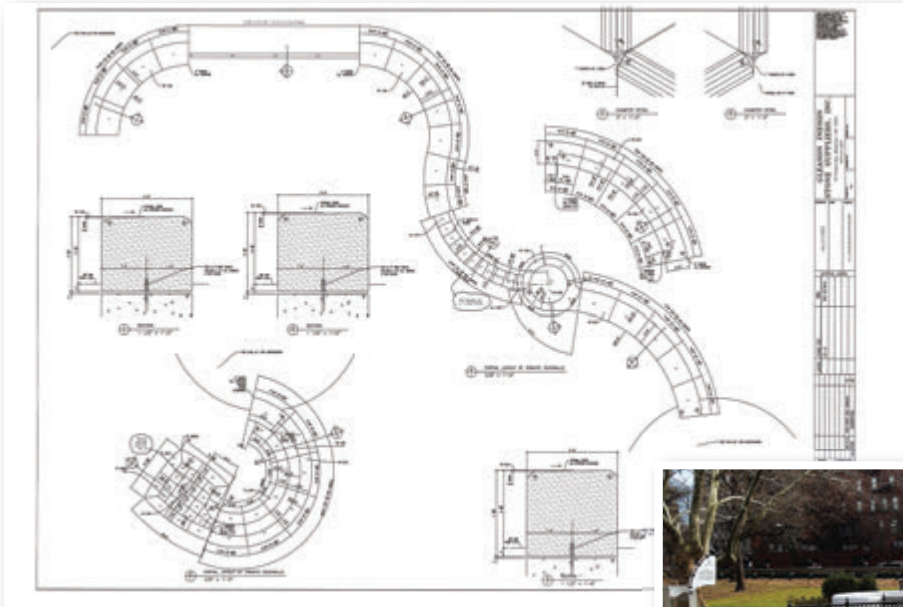

No two projects are alike. Therefore, being able to offer custom fabrication is essential to meeting customer service. **GI Stone** is ready to work with you to create the look you desire. Starting at design conception, we will offer our expertise to help you achieve your vision on time and within budget. Our commitment to your project carries through to project completion. We will offer weekly updates of our progress on custom fabricated projects so our customers will know where they stand and be able to schedule their other work.

Whether your top priority is schedule, cost, quality, aesthetics or “the best possible project, in the least amount of time”, we have the resources to make it happen.

# Estimating & Drafting

**GI Stone's** Estimating and Drafting departments give the architects, engineers and contractors the ability to work with professionals who understand all aspects of the stone industry. We pride ourselves on quick, accurate quotations and we stand behind our estimates.

**GI Stone** also provides shop drawings for projects, if required. Utilizing state-of-the-art CAD drafting programs, we will produce drawings for confirmation of quantities and details, and to aid you in the installation process, we will include setting drawings.
