

SCREEDING LEVELS

Robust Outdoor Use, Construction

A specialty level that is the best level for landscaping and concrete work. Our special H-beam design provides superior strength. They can also be used as a check rod to ensure the flatness of whatever surface you're working on. The vial is built directly into the tool, providing a degree of accuracy and consistency not achievable with levels clipped onto screeds. No adjustments needed for clipped or screwed on vials.

Keson Aluminum Screeding levels are designed for use in leveling cement, sand or paving stones in driveways, sidewalks and patios. This level has a high wall construction. Keson Screed levels are made to the most exacting European specifications. Will withstand rugged daily use and temperature changes. Easy to read FOCUS vial is made of shockproof acrylic for durability. Made in Austria.

SCREEDING FEATURES

- 1. Rugged 6063 aluminum alloy frame** provides the highest accuracy for perfect measuring result.
- 2. End Caps** are shock absorbing, allowing the level to withstand use and abuse.
- 3. Wide handles** for use outside of the screeding area. **LKS78A** has closer handles for 1-person usage.
- 4. SOLA FOCUS Vials** for better accuracy and readability.
