## GRACIOUS OUTDOOR LIVING

OUR HIGH-STYLE, 2CM PAVERS COMBINE ON-TREND VISUALS with unsurpassed durability. Daltile's TREAD™ collection of pavers offers the beauty of the finest natural wood and stone looks to your outdoor living environment.

## WHY PORCELAIN?

Why is porcelain the ideal material choice for new build or remodeled homes?

Durability, beauty, and easy installation.

Made from only three natural ingredients – clay, sand, and feldspar – porcelain is synonymous with strength. It is resistant to scratches and abrasion, has very low water absorption (<0.5%), a high breaking strength, and it is resistant to stains, chemicals, and algae growth.

## DESIGNED TO ENDURE

We strive to offer only the best design materials and solutions for your project that are easy to clean and require little maintenance.

With beautiful products and simple care, creating gorgeous outdoor spaces has never been easier.
