ALUMINUM FIXTURES TEXTURED POWDER COATED ALUMINUM CONSTRUCTION - AVAILABLE IN BRONZE & BLACK

## Accent & Spot Light

- PN: NLAL-BZ** (Bronze)  
**PN: NLAL-BLK** (Black)
- Adjustable knuckle
  - Tempered glass lens
  - 8" heavy duty stake
  - Uses MR16 LED lamp (not included)

## Path & Area Light

- PN: NLPL-BZ** (Bronze)  
**PN: NLPL-BLK** (Black)
- White reflective underside
  - Tempered glass lens
  - 18" stem with an 8" stake
  - Uses LED Bi-Pin lamp (not included)

## Accessory Mounting Bracket

Designed to mount fixtures with a 1/2" threaded stem to surfaces that cannot use a ground stake

\* All fixtures come with 2 each of our UL listed Q-Loc Direct Burial Wire Connectors

SPECIALTY BRINGING THOSE DARK AREAS TO LITE!

## TITE-LITE - Flexible LED Fixture

- PN: NLT-LITE**
- All-In-One Flexible Fixture & Lamp
  - Safe to use in water
  - Silicone sealed LED
  - Fits almost anywhere
  - 10' of submersible wire

## FLICKER-LITE (coming soon)

- PN: NLT-FLK**
- Similar to our Tite-Lite, the Flicker-Lite puts out a candle effect. It's great for lighting hanging lights, old lanterns and small areas you want to draw attention.

## TRANSFORMERS

- PN: NLXF-70** (70W)  
**PN: NLXF-150** (150W)
- Photo Cell
  - Countdown Timer
  - Hi/Lo Setting
  - Stainless Steel

\* All Tite-Lites come with 2 each of our UL listed Q-Loc Direct Burial Wire Connectors

ACCESSORIES WIRE CONNECTORS - WIRE STRIPPERS

## Q-Strip Self-Adjusting Wire Stripper

### Ideal for Landscape Lighting, Irrigation and 2-Wire

Our self-adjusting wire stripper makes electrical projects easy and more efficient. Whether you're a professional or the DIY type you will find that the Q-Strip makes it easy to switch between multiple size wires without slowing down.

Q-Strip PN: NLQ-AS

Q-Loc Part Numbers:  
NLQ-LOC (Bags of 20)  
NLQ-LOC10 (Bags of 10)

## Q-Loc™

### Direct Burial Lighting Connector Instructions

US Patent # 9,425,545

#### Step 1:

#### Open top Locking Bolt

Turn the top locking bolt counter clockwise until there is a clear pathway through the front opening of the connector. No need to remove the locking bolt.

#### Step 2:

#### Strip, Fan & Insert Wires

Strip the wires 3/4"-1", fan out then twist the ends. Insert into the connector as far as the wires will travel.

#### Step 3:

#### Hand tighten Locking Bolt

No need to over tighten. The locking bolt will press against the wire jacket not the bare copper ends; giving it a better hold and secure connection.

#### Step 4:

#### Clean Installation

Press the male end of one connector into the female end of another. This will group your connectors together and give a clean looking installation.

## NOT EVERY WALL IS FLAT!

That's why we created the Rotatable LED Ledge Light version 2.0

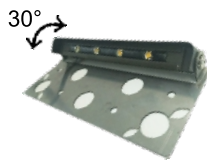

Gone are the days of removing caps stones or worrying about wiring when you need to replace a ledge light.

With the idea that "Not Every Wall is Flat", we made our top selling Rotatable Ledge Light even better. Not only can you eliminate hot spots on walls by adjusting the angle of the light bar up to 30°. Now our newest version comes with an easily replaceable light bar. All can be done without removing or cutting stones.

- Eliminate HOT SPOTS by rotating the light bar up to 30° from the wall
- All adjustments can be made after the light is installed
- Quickly remove the light bar after installation - no need to remove the cap stone
- 1.5 Watts - 100 Lumen - 2700K color temperature
- Stainless Steel mounting bracket with break away corners
- Low profile allows fixture to hide in hardscape
- Glare shield reduces light exposure at elevations

## LEDGE & DECK LIGHTING

### Adjustable Ledge Light

PN: NLSL-7RC

- Adjustable & Removable light bar
- 7 inch wide light bar
- Eliminate hot spots
- 1.5W / 100 Lumens
- 2700K color temperature

### Mini Ledge Light

PN: NLLNR-3 (Bronze)

- 3 inch wide light bar
- Bronze glare shield
- Stainless steel bracket
- IP67 Waterproof
- 0.5W / 30 Lumens
- 2700K color temperature

### Deck Light

PN: NLDL-BZ (Bronze)

- Brass body
- Frosted lens
- Stainless bracket
- Includes 2 Q-Loc direct burial wire connectors
- Uses LED Bi-Pin Lamp (not included)

## SPECIALTY HARDSCAPE LIGHTING

## RECESSED PAVER & HANGING

### Recessed Paver Light

PN: NLSS-45 (stainless)

PN: NLSS-45B (black)

- Great for Pavers
- Stainless steel body
- Includes 2 Q-Loc direct burial wire connectors
- IP67 Waterproof
- 1W / 100 Lumens
- 3000K color temperature

Great for patios, driveways and paths. Built in mounting clips make it easy to recess overhead in wood pergolas & covers.

### Hanging & Tree Light

PN: NLHL-BZ (Bronze)

- Brass body
- Hanging cable included
- Clear & Frosted Lens
- Includes 2 Q-Loc direct burial wire connectors
- Uses MR16 or MR11 LED lamp (not included)

### LED Lamps

Outdoor rated LED lamps. Perfect for installation in fixtures or as a halogen replacement. Our wide range of lamps include: MR16, MR11, SCB/DCB and wedges. All lamps are 12VAC rated at 3000 Kelvin.

\* All NewLite fixtures and lamps are rated for 12 volt low voltage and require a transformer (sold separately)
