CRUSHING

### MACHINES IN ACTION

Watch the unique action of Rotastar™ screening buckets saving your company time and money by efficiently recycling materials on-site.

Rotate your attachments 360° with Steelwrist's Tiltrotators and change your tools without ever getting out of the cab with SQ Auto Connect.

Get the power and reliability of OSA Demolition equipment. Advanced design and built with the highest quality Hardox materials.

For excavators 8 to 150 tons, look for our Xcentric high-performance hydraulic rippers and crushers designed for the toughest working conditions.
