

TUFF CARBON MARKING PENCIL

PRO SERIES

TUFF CARBON MARKING PENCIL

Built with the tradesman in mind, the OX Tools Tuff Carbon Marking Pencils are packed with features and are an excellent choice for any tradesman. The unique square design prevents the pencil from rolling off surfaces, unlike traditional round design. This pencil is designed to be able to write on almost any surface on a job site including metal, wood, plastic, brick, stone, block, concrete, glass, tile and much more. It features a belt clip and an integrated lead sharpener built into the cap.
