LIGHTING BOSS 2.0 DESIGN & SALES APP

Not just a mobile program, but a business philosophy.

The Lighting BOSS Philosophy is simple: We believe in utilizing Technology to help Outdoor Living Professionals Increase Profits, Efficiency & Value. How? LB 2.0 Design & Sales App allows Digital Renderings & Proposals to be created in minutes, not hours, all while onsite. This creates a more interactive experience for the prospect, leading to a higher closing percentage. The drawing also creates an Installation & Service “roadmap,” allowing for efficient maintenance throughout the lifespan of the system. This not only creates operational self sufficiency, but adds Value to the company when it becomes time to pass the baton.
