

ROCKETBOX™

MASONRY SIMPLIFIED

CALEB KING 603.520.1175 TheRocketBox.com

The cement block, reimagined.

ROCKETBOX™ is a light-weight, structural, project ready, masonry unit designed to speed up core work for your veneer project.

Depending on climate and project conditions, a concrete footing is not always required. ROCKETBOX™ can be set directly on a compacted base of aggregate, concrete, wood, and more. Or, use our signature column bracket that requires no footing.

ROCKETBOX™ is a closed cellular, glass core masonry unit with a project ready scratch coat.

Holds 228 PSI

Non-combustible rating of 1350° F

Water-proof

Rot proof

Vermin resistant

No warp

Ready for a variety of veneer products

Field adaptable

Light-weight

Structural

We Make Masonry, Faster.
