

Mason Level & Mason Pads

SOLA mason levels and level guard/mason pads are especially designed for masonry pros.

Many of you asked for a level that can be tapped with a trowel butt. While we'd prefer that you tap that brick or block, we recognize you have your way of working. So, we have a few products that will help you get those blocks and bricks in line.

Highlights Mason Levels

- Extra strong aluminum profile with reinforcing ribs and two strike zones to protect the spirit level from the hits of a mason's trowel
- Better, faster and more accurate reading through the patented SOLA FOCUS vials.
- Break-resistant acrylic block vials with magnifying lens (+60%) and a limited lifetime guarantee.
- Better readability in dim light through an optimized SOLA luminous backing.
- Highest measuring accuracy in standard and inverted position.

Highlights Mason Pads

- SOLA Level guards fit all SOLA BIG RED Levels - Any BIG RED level can be used as a mason's level.
- Removable and replaceable – SOLA Level guards have enough physical grip to hold the pad in place, and can be detached when not in use or for level cleaning with water and brush.

Especially for masons: extra strong aluminum profile with reinforcing ribs and two strike zones to protect the spirit level from the hits of a mason's trowel.
