1. NAME: Hardscape.com Polymeric Sand

Link: <https://hardscape.com/polymeric-sand/hardscape-polymeric-sand>

Description:

The **Hardscape.com Polymeric Sand** is an all-purpose sand designed to meet the needs of Contractors who are looking for a High Performance solution sand for all types of pavers.

Hardscape.com Polymeric Sand is a unique mixture of polymer binders and calibrated crushed stones such as granites and Quartz available in **White, Beige, Grey, Dark Grey, and Black colors**. Once Hardscape Polymeric Sand sets, it becomes very firm and locks between the porcelain tile joints while still retaining flexibility and providing a long-lasting, durable jointing material.

Hardscape.com Polymeric Sand is recommended for a variety of pedestrian and vehicular uses including pool decks, patios, footpaths, etc.

Our polymeric sand is no-hazing and works with Porcelain Pavers, Natural Stones, Concrete Pavers, Flagstones, and more without the fear of over watering because we go heavy on our polymers. Conveniently available in 50 pound bags.
